

COMPANY PROFILE

RESIDENTIAL

GK Architects is a Professional Architectural Design office that works with individuals, builders, investors, developers and companies on both Residential and Commercial projects.

GK Architects was incorporated in 2008 and has been working on multiple high-end residential houses and hospitality projects both locally and overseas.

HOSPITALITY

For every Project, we craft spaces with clients while achieving Sustainability and Creating Value. GKA achieves this with providing a Vision and bringing it meticulously to Reality.

Working closely with the client, we tailor the design to a solution that offers successful results. GKA has the knowledge, skill and experience to create and manage your project and achieve your goals.

GKA will develop a project team of professionals suited to your project requirements. GKA's network team of Design, Engineering and Quantity Surveying professionals will focus on the client's desires to achieve a successful project.

RECONSTRUCTION

GKA stresses Design Excellence balanced by meticulous project management. GKA will always offer a productive and personal attention to each client with fresh and creative ideas.

We look forward to hearing from you to discuss your project's dreams and desires.

Gabriel Kon Su Ye
Principal Architect/Design Director

Gabriel Kon is an Architect who has been involved in projects of diverse complexities both locally and overseas. Being the Lead Consultant, he has led and collaborated with other consultants and planners to implement and complete complex luxury Hotel/Resort projects in and around APAC.

With more than 20 years of practice in Design Consultancy, he has worked with the clients on conceptualizing design briefs, providing clear design directions and ensuring timely completion of the Architectural & Interior projects.

He has 20 over years of extensive experience in managing complex design teams for large scale projects in both Hospitality & Commercial sectors. Working with Local & Regional clients, they have improved his design & technical management for all types of projects. He was also involved in the procurement, resource allocation, construction and maintenance processes of the projects.

He is also a Qualified Architect in Singapore with familiarity in building codes, energy codes and construction codes. He has In-depth knowledge of design, construction and maintenance norms and trends in the construction sector
